

Automotive

Understanding the importance of quick and efficient processing of quote requests, we use a fast track process for product design, prototypes, testing, and PPAP documentation.

Custom webbings, hardware, and straps are designed by our Engineering Group to meet the unique requirements of each specific application, and performance characteristics are validated through in-house testing.

Why Sturges?

- **Working prototypes** to meet **your** deadlines
- **Cost effective** engineered solutions
- **Managed inventory** systems to support JIT
