

STURGES[®] engineered straps & webbing

REGISTERED TO
ISO 9001

Safety

Whether it is health and safety or fall protection, our engineers design custom webbings and straps to provide the look, feel, and performance you require.

Using our internal dynamic testing facility, we continually monitor production of our Tear Webbing through SPC and then certify performance to the current ANSI & CSA standards. For our customers this translates into cost savings in inspection and reduced processing time.

Why Sturges?

- **Dynamically tested** and **certified** Tear Webbing
- **Exclusive samples** to meet **your** deadline
- **Small runs** in high strength and heat resistant webbings
